Introduction to the Event

Photography isn't everyone's cup of tea. It requires focus, dedication, and a keen eye. Beauty lies in the eye of the beholder, and that is the hidden meaning of photography. What I might see as a mundane object can be turned into the most beautiful artefact on Earth, just with the right lighting and techniques. It can be demanding, but the prize for capturing a priceless moment can be quite rewarding.

Lensation is a unique event launched by Samudramanathan, IIT Kharagpur to provide a platform for budding photographers to show off their skills. Anyone with a flair or inherent interest is welcome to take part in this event and stand a chance to win cool and exciting rewards!
